

Mercury General Purpose Interface (GPI)

The General Purpose Interface provides 16 GPI inputs and 16 GPI outputs for the Mercury Interface Unit or the Black Box 2.X:

- 16 inputs with grounding contact closure or 16 inputs TTL
- 8 outputs with floating ground opto-isolator and 8 outputs with OCC, or 16 outputs TTL
- 2 DB25 connectors

The assignment of GPIs can be flexibly configured through software.
